Hello Friends,

What an amazing journey it has been since 1923. The Animal Defense League has taken in and cared for thousands of homeless dogs, cats, puppies and kittens. Every day is an opportunity to save more lives and to build the human/animal bond and to share the love and joy of animal companionship.

The Animal Defense League wouldn’t exist without your help. You make all of this possible through your gifts of time, money, resources and advocacy. Your belief in the intrinsic value and dignity of the animals we serve is invaluable and allows the League to continue our difficult but gratifying work.

Together, we are reducing the euthanasia rates in San Antonio and allowing the pets we rescue to not only live but to thrive. The thought that the love of an animal makes us more human, humane and compassionate, and being part of a community of people who care, is inspiring. Some year, maybe in the not too distant future, our work may no longer be needed. Until that day, thank you for allowing the Animal Defense League to continue our lifesaving work.

Sincerely,
Janice Darling
Executive Director
If you treat an animal right, it will reward you with unconditional love.

The Animal Defense League got its start as part of the Child Protective & Humane Society which began operating in 1923. This was an initiative to help children, companion animals and beasts of burden. In 1934 the Animal Defense League was incorporated and became a new organization with a mission to prevent cruelty to animals.

The early kennels were makeshift, often using chicken wire and leftover scrap wood to shelter stray and injured dogs and cats. Over the years our mission has expanded from providing basic shelter and care to finding permanent homes for the thousands of dogs, cats, puppies and kittens annually.

In the early 1960s ADL moved to its present location in northeast San Antonio. Our campus encompasses more than 12 acres and includes an adoption center, kennel buildings, a cattery complex, an education center, a two acre pet park, a separate clinic for on-site ADL animal surgeries and medical care, kennel buildings, a cattery complex, an education center and a two acre pet park. Please come visit us at one of our two locations: main campus on Nacogdoches Rd. or the Paul Jolly Center for Pet Adoptions in Brackenridge Park.

Carlton was brought to ADL through our partnership with Animal Care Services (ACS) on Jan. 25th. Carlton had one of the worst facial injuries our hospital staff had seen in a while. It was heartbreaking and shocking to see him in the condition he arrived in. The skin on the left side of his face was completely gone, exposing his facial muscles and even some bone. Carlton’s eye was severely damaged and his front left leg also had a gash.

Our veterinarian and hospital staff quickly aided Carlton and examined his overall health. We’re not certain how his injuries occurred but judging from his wounds, our veterinarians suspect he may have been hit by a vehicle and dragged causing his skin to scrape off. Although Carlton was in obvious pain, he remained surprisingly calm and was incredibly trusting of everyone that aided him. He was even eating normally like any healthy dog would. Our veterinarian team immediately began treating his wounds using a honey/sugar wrap to prevent infection and to speed up the healing process.

Every other day, his bandages were replaced, his wounds were thoroughly cleaned, and the honey/sugar was reapplied. Sweet Carlton didn’t enjoy being restricted to the cone-of-shame and being bandaged. However, he still remained strong! Every week his condition improved immensely and his skin started to heal. After one month, his skin looked so much better and it was now time for his badly damaged eye to be removed. Our veterinarian performed the surgery to remove his eye and Carlton did well through the surgery.

The amazing support of our staff, volunteers, and donors allows us to help pets like Carlton. After three months at ADL, Carlton was finally adopted. We are incredibly happy that he found the home of his doggie dreams!
On Feb. 28th of 2018, Señor came to ADL in terrible shape and in obvious discomfort. This poor kitty could hardly open his eyes and was missing lots of hair. It turns out that Señor had severe dermatitis, ear mites, and hair loss from sarcoptic mange. He also tested positive for FIV. Señor spent many weeks in our isolation unit where he received lime dips and treatment from our hospital staff to help him heal.

After defeating sarcoptic mange, Señor had another issue. He also had entropion, a condition where the eyelids fold inward causing him painful eye discomfort. Thankfully, this was able to be corrected with surgery that was performed by our veterinarian. Señor didn’t have it easy and after spending months in our hospital, he has since healed. He is now able to show-off his beautiful green eyes! His fur has grown back and he seems much happier and loving!

After nine months at ADL, Señor was finally adopted on Nov. 5, 2018 at the Paul Jolly Center for Pet Adoptions. The staff got to know him well and he was a favorite around ADL, but we are incredibly happy that he finally found the loving home that he deserves.

Unfortunately, many of the pets that we take in need additional medical care such as Señor. They may spend weeks and sometimes months recovering. Señor is just one of the many pets at the Animal Defense League who needed extra care before being made available for adoption. If you’d like to help us save more lives, then please consider making a donation to help us with the next Señor.
Happy Tails

BETSY DAMON’S LEGACY
THE ANIMAL DEFENSE LEAGUE FOUNDATION

Betsy Damon was a life-long lover of animals and steadfast supporter of the Animal Defense League of Texas. Before Betsy passed away in 1998, she established a private foundation the basis of which was built by her legacy, and expanded upon by the legacies of other animal lovers like herself. Mrs. Damon’s vision was to create an entity that would not only last forever, but be a vehicle for others like her in their remembrance of homeless and injured domestic animals.

Thanks to Betsy’s compassion and generosity the Animal Defense League Foundation has distributed over $10 million to help fund the expansion of the Animal Defense League’s services. Betsy’s vision has helped save thousands of dogs and cats. We know she would be proud of both the Animal Defense League of Texas and the Foundation.

Each year we recognize a corporation and a volunteer for their selfless giving and support of our mission in honor of Betsy.

BETSY DAMON AWARD
DONOR OF THE YEAR

ADL relies heavily on the partnerships we form with local and national businesses. The 2018 Betsy Damon Donor of the year was Perrin-410 Animal Hospital. Since 2013, this private business has donated more than $125,000 to support ADL’s mission. Perrin-410 Animal Hospital truly cares about the animal welfare community of San Antonio. Through their wellness program offered to every ADL adopter, Perrin-410 is helping ADL create responsible pet owners in our city. Thank you Perrin-410 Animal Hospital for supporting the Animal Defense League of Texas!
